

Maphali Marion

4638 Klipspruit Golf Course Flats, Pimville zone 5, Soweto, 1812

Information Technology (Networks)

I am a dedicated and detail-oriented professional with a strong background in IT networks. Skilled in network engineering, I am committed to delivering high-quality work, contributing effectively to any team, and pursuing continuous growth within dynamic environments, I am skilled and motivated, committed to excellence and growth.

Education

E.P.P. Mhinga High School
National Senior Certificate (Matric)
Completed: 2020

Nelson Mandela University
Diploma in Information Technology (Networks)
2021 – 2024

KEY SKILLS

- Troubleshooting and Diagnostics
- Network Design and Implementation
- Network Security Management
- Routing and Switching (Cisco)
- Virtualization (Virtual Machines)
- Network Monitoring and Simulation (Packet Tracer)
- Programming Knowledge (C#, Python, SQL)

ADDITIONAL SKILLS

1. **Networking:** TCP/IP, OSI, IPv4/IPv6, Subnetting, LAN/WAN/VLAN/WLAN.
2. **Routing & Switching:** Static Routing, OSPF, BGP, EIGRP, VLANs.
3. **Network Security:** Cisco ASA Firewall, VPN (IPSec, Site-to-Site), ACLs, IDS/IPS.

ACHIEVEMENTS

INTRODUCTION TO NETWORKS: CCNAV7 - CISCO Networking Academy
Feb 2021 - Dec 2021

Configured switches, routers, and end devices for local and remote network access. Explored physical and data link layer protocols supporting Ethernet in switched networks. Implemented IPv4 and IPv6 addressing schemes for end-to-end connectivity. Applied security best practices while configuring small networks and troubleshooting connectivity issues.

INTRODUCTION TO CYBERSECURITY - CISCO Networking Academy
Feb 2021 - Aug 2021

Gained foundational knowledge of cybersecurity principles, including network security, cryptography, firewalls, and threat identification. Developed practical skills in identifying common threats, protecting networks, and securing data.

INTRODUCTION TO IOT - CISCO Networking Academy Feb 2022 - Jul 2022

Gained foundational knowledge of cybersecurity principles, including network security, cryptography, firewalls, and threat identification, while developing practical skills in protecting networks and securing data.

CCNA: Enterprise Network, Security, and Automation CISCO NETWORKING ACADEMY
Feb 2024 - Dec 2024

Completed the final course in a three-part series, advancing networking skills by configuring VPNs, IPsec, NAT, ACL's and firewalls, troubleshooting complex network issues, and implementing network automation for enhanced efficiency and security.

Additional Information

Driver's License: Class C1 (Code 10) (Valid until 2030)

Languages:

- Xitsonga (Fluent)
- English (Fluent)

ADDITIONAL SKILLS

4. **Troubleshooting:** SSH/Telnet, Ping, Traceroute. Automation: Python Scripting.
5. **Virtualization:** VirtualBox, Virtual Machines.
6. **Wireless:** WLAN Configuration, WEP/WPA/WPA2.
7. **Cloud Networking:** Basic Azure Networking.
